

Software Developer, PHP

Location: Worsley, Manchester

Salary: 35 – 40k

Contract: Permanent, Full time

Hours: 9am - 5pm Mon to Friday, a total of 37.5 hours per week.

We are an independent software house based in Worsley, Greater Manchester but nearer to Bolton in the North West of England.

Our core business is selling IT solutions to the Food Delivery sector, primarily Dairy's delivering milk etc to households and businesses throughout the UK; Dairydata is our trading name in this area.

Our data management software is a powerful tool, strategically designed to help you manage your business by improving your **efficiency, control** and **communication**.

We developed our data management application for our own dairy business in the 1980s. Today, our Paragon Dairy Management System remains the only application that has been developed by a milkman specifically for the dairy and food delivery industries.
